APTITUDE ABILITY 17 of 25 points

✗ Q1. What is the fourth proportional of 0.006, 1.2 & 6/25? * 0/1

A. 36

B. 48

C. 4.8 ✗

D. 3.6

Correct answer

B. 48

✓ Q2. Two ants of length 1 cm and 1.2 cm crawl in opposite directions with average speeds of 2 and 3 mm per second respectively. How many seconds will they take to cross each other? *1/1

A.4.4 ✓

B. 2.8

C. 0.4

D. 1.5

✓ Q3. The index numbers of five commodities are 121, 123, 125, 126, 128 and the weights assigned to these are respectively 5, 11, 10, 8, 6. Then what is the weighted average index number? *1/1

- A. 123.8
- B. 124.2
- C. 124.6 ✓
- D. 125.2

✗ Q4. Which one among the following has the least value? * 0/1

- A. √75 - √74
- B. √74 - √73 ✗
- C. √77 - √76
- D. √76 - √75

Correct answer

- C. √77 - √76

✓ Q5. A sum was lent to Ravi for three years by an organization that fixed a yearly rate of 10%
compound Interest for repayment along with the condition of recovery in equal installments of Rs.31944. What percentage (correct to two decimal places) above the borrowed amount Ravi
had to pay the organization? *1/1

- A. 18.43
- B. 21.25
- C. 16.52
- D. 20.63 ✓

✓ Q6. If the 5-digit number 776xy is divisible by 3, 7 and 11, then the value of (5x+3y)? *1/1

- A. 13
- B. 21
- C. 23 ✓
- D. 26

✓ Q7. If a3 + b3 = 539 and a+b = 11, the value of √{(a+b)2+7ab} is: * 1/1

- A. 18
- B. 17 ✓
- C. 13
- D. 19

✓ Q8. In an examination, 55% of the students passed and 621 failed. If the number of students for the exam was 69% of those who had applied for the exam, how many students applied for the examination? *1/1

- A. 1960
- B. 1380
- C. 2000 ✓
- D. 1800

✓ Q9. In 2020, a certain number of students for institute A appeared in the annual examination and 35% of the students failed. In the same year, 250% more students than that of A appeared in the same examination from institute B. If 70% of the total students of A and B, passed the examination, then the fail percentage of students of institute B is _____ *1/1

- A. 31.4
- B. 25.7
- C. 32.2
- D. 28.6 ✓

✗ Q10. A milkman adds 20% water to a given quantity of milk. He marks the price of adulterated milk by 25% of price of pure milk. What discount should he offer on the marked price for no profit no loss situation? *0/1

- A. 25%
- B. 20% ✗
- C. 16%
- D. 33.33%

Correct answer

- A. 25%

✗ Q11. A shopkeeper gains 20% by selling an article at 25% discount on its marked price. If the cost price of the article increases by 20%, how much discount percentage should he give now on the same marked price to get a profit of 8%? *0/1

- A. 20
- B. 19
- C. 12.5 ✗
- D. 16.5

Correct answer

- B. 19

✓ Q12. The difference between the simple interests accrued on a sum at p% p.a. and (p-5)% p.a. after four years will be Rs. 12,000. Find the sum? *1/1

- A. Rs. 80,000
- B. Rs. 72,000
- C. Rs. 60,000 ✓
- D. Rs. 50,000

✓ Q13. What is the difference between the compound interest on Rs.60000 at the rate of 12% per annum compounded annually in 2 years and simple interest earned on Rs.50000 at 16% per annum in 2 years? *1/1

- A. Rs. 746
- B. Rs. 856
- C. Rs. 816
- D. Rs. 736 ✓

✓ Q14. If a:b = 2:3; b:c = 4:5; and d is 20% more than c, find the ratio between a and d? *1/1

- A. 4:9 ✓
- B. 8:9
- C. 4:7
- D. 1:4

✗ Q15. Aditya, Bhaskar and Chandu divide an amount of Rs. 10,200 among themselves in the ratio 4:7:6. Aditya and Chandu give Rs.600 each to charity and Bhaskar lent Rs. 3,000 to Pradeep and earned an interest of Rs.1,200. Find the ratio of amounts with them now. *0/1

- A. 5:4:6
- B. 3:5:9
- C. 4:5:6 ✗
- D. 3:9:5

Correct answer

- B. 3:5:9

✓ Q16. Pipes A and B can fill an empty tank in 20 mins and X mins respectively, whereas C can empty the full tank in 60mins. When pipes A, B and C are opened simultaneously the tank will be filled in 15 minutes. What is the value of X? *1/1

- A. 40
- B. 30 ✓
- C. 20
- D. 45

✗ Q17. The lengths of trains X and Y are 240m and 300m respectively. X and Y pass a static pole in 6 and 12 seconds respectively. In what time (in seconds) will they cross each other, if they move in the same direction? *0/1

- A. 36
- B. 24
- C. 18
- D. 30 ✗

Correct answer

- A. 36

✓ Q18. A boat can go 48km upstream and 36km downstream in 5.8 hrs. The speed of the boat in still water is 16km/h. How much time (in hrs) will the boat take to go 54km upstream and 40km downstream? *1/1

- A. 6.8
- B. 6.5 ✓
- C. 7.2
- D. 7.5

✗ Q19. A box contains 25 paise coins and 50 paise coins. If the number of 25 paise coins is tripled, amount of money in box will increase by 50%, then number of 50 paise coins CANNOT be equal to *0/1

- (●) A. 36 ✗
- ( ) B. 28
- ( ) C. 32
- ( ) D. 25

Correct answer

- (●) D. 25

✓ Q20. The sides of a triangular park are 36 m, 105 m and 111m. The cost (in INR) of levelling the park at INR. 8.50 per m^2 is _____ . *1/1

- ( ) A. INR 15.980
- (●) B. INR 16,065 ✓
- ( ) C. INR 17,010
- ( ) D. INR 15,120

✓ Q21. The volume of a solid right circular cone of height 16 cm is 15085(5/7) cm3. What is the curved surface area (in cm2) of the cone? (Take π = 22/7) *1/1

- ( ) A. 3300.2
- (●) B. 3205.7 ✓
- ( ) C. 3200.4
- ( ) D. 3105.8

✗ Q22. What is the difference between Range and Quartile deviation of the following 11 items: 8, 10, 16, 22, 28, 18, 34, 35, 40, 26 and 12? *0/1

- A. 22
- B. 32 ✗
- C. 11
- D. 21

Correct answer

- D. 21

✓ Q23. The mean of the first 7 multiple of smallest composite number is K, then find the median of the following numbers. 10, K, 13, 12, 16, 14 and 18 *1/1

- A. 15
- B. 13
- C. 16
- D. 14 ✓

✓ Q24. 30 packets of sugar of the same weight are kept in a storeroom. If 6 more packets of 35 kg each are kept in the storeroom, the average weight increases by 2.5 kg. Find the arithmetic mean of the initial total weight of sugar and the final total weight of sugar in the storeroom. *1/1

- A. 600 kg
- B. 750 kg
- C. 810 kg
- D. 705 kg ✓

✓ Q25. If the mean of the following distributions is 50, then what is the value of R? *1/1

Class	0-20	20-40	40-60	60-80	80-100
Frequency	6	2	3	R	5

- A. 4 ✓
- B. 8
- C. 6
- D. 5

REASONING ABILITY 9 of 15 points

✓ Q26. Which is the WRONG term in the following series? * 1/1

SBNQ, UEMO, WHLM, YKKJ, ANJI

- A. WHLM
- B. YKKJ ✓
- C. UEMO
- D. ANJI

✗ Q27. In each of the four pairs of letter-clusters, the letters in the second term are in a rearrange/transformed form of the letters from the first term in a particular pattern. In which two pairs, has the transformation been done the same way? *0/1

- [A] TUESDAY - DAYTUES
- [B] FRIDAY - RFDIAY
- [C] MONDAY - OMDNAY ✗
- [D] THURSDAY - TUSADYHR

Correct answer

- [B] FRIDAY - RFDIAY

✓ Q28. Given below is a question followed by two statements, I and II each containing some information. Decide which of the following statement(s) is/are sufficient to answer the question. *1/1

Amongst five friends seated in a straight line facing North, is Q sitting at extreme left end?

1. Q, S are immediate neighbours of each other. Similarly, T, R are also immediate neighbours of each other. P sits exactly in the middle of the line.

2. P who sits exactly in the middle of the line is second to the left of R. Q is not an immediate neighbour of P.

- A. The data in statement I alone is sufficient to answer the question, while the data in Statement II alone is not sufficient to answer the question.
- B. The data in Statement II alone is sufficient to answer the question, while the data in Statement I alone is not sufficient to answer the question. ✓
- C. The data either in Statement I alone or in Statement II alone are sufficient to answer the question.
- D. The data in both the statements I and II are not sufficient to answer the question

✗ Q29. Given below is a question followed by two statements, I and II each containing some information. Decide which of the following statement(s) is/are sufficient to answer the question. *0/1

A, B, C and D have different heights and weights. Who is the heaviest among them?

Statements:

I. The heaviest person is also the 2nd shortest. A is heavier than C, who is shorter than B but not shortest and D is the lightest.

II. The 2nd shortest person is the heaviest person. C is lighter than B, who is the tallest. A is heavier than D.

- ○ A. I alone is sufficient but II alone is not sufficient.
- ○ B. II alone is sufficient but I alone is not sufficient.
- ○ C. Either statement I or II alone is sufficient.
- ◉ D. Both the statements together are necessary. ✗

Correct answer

- ◉ C. Either statement I or II alone is sufficient.

✗ Q30. Given below is a question followed by three statements I, II and III, each containing some information. *0/1
Decide which of the given statements is CORRECT.
Who amongst P,Q,R,S and T is the third youngest person?
I. Q is the second eldest person.
II. Neither P nor R is the youngest, and P nor R is the youngest, and P is not the eldest.
III. S is the second youngest person.

- A. If the data in statements II and III are sufficient to answer the question, while the data in statement I is not required to answer the question.
- B. If the data in statements I and II are sufficient to answer the question, while the data in statement III is not required to answer the question.
- C. If the data in all the statements I, II and III together are necessary to answer the question.
- D. If the data in statements I and III are sufficient to answer the question, while the data in statement II is not ✗

Correct answer

- C. If the data in all the statements I, II and III together are necessary to answer the question.

✓ Q31. Biswas is the father of Tilak. Biswas has only two children. Tilak is the brother of Rani. Rani is the daughter of Pratiksha. Anvi is the granddaughter of Pratiksha. Shoban is the father of Anvi. Rani is married to Shoban. How is Shoban related to Tilak if '%' is son, '$' is son-in-law, '*' is brother, '&' is brother-in-law? *1/1

- A. *
- B. $
- C. %
- D. & ✓

✗ Q32. In a certain code, if: *0/1

Q @ R means R is the daughter of Q.
Q # R means R is the son of Q.
Q $ R means R is the sister of Q.
Q % R means Q is the brother of R.
Q + R means Q is the mother of R.

S % T - O $ N - E

If O and E are male members of the family. Which of the following is a CORRECT conclusion drawn from the expression?

- A.E is son of T
- B. N is daughter of O. ✗
- C. S is sister of T.
- D. E is son of N

Correct answer

- D. E is son of N

✓ Q33. Some students of a school are stand in a row, if Anvesha who is 15th from the left and Kush who is 6th from the right interchange their positions, Anvesha becomes 24th from the left. How many students are there in a row? *1/1

- A. 28
- B. 27
- C. 30
- D. 29 ✓

✓ Q34. Read the following information carefully and answer the question that follows. *1/1

1. Five persons - Anmol, Bipin, Chaya, Disha and Manoj.
2. One of them is a nutritionist, one is a dentist, one is a filmmaker, one is a politician and one is an economist.
3. Three of them - Anmol, Chaya and economist prefer tea to coffee and two of them - Bipinand the filmmaker prefer coffee to tea.
4. The politician, Disha and Anmol are friends to one another but two of them prefer coffee to tea.
5. The nutritionist is Chaya's brother.

- A. Bipin
- B. Anmol ✓
- C. Disha
- D. Chaya

✓ Q35. Mohan and Sarayu are good at image processing and signal processing. Archana and Mohan are good at signal processing and Cryptography. Archana, Pallavi and Nirupama are good at Cryptography and data science. Nirupama and Archana are good at Cryptography and Wavelet theory. Pallavi and Sarayu are good at Data science and image processing. Who is good at signal processing, data science and image processing? *1/1

- A. Nirupama
- B. Archana
- C. Mohan
- D. Sarayu ✓

✗ Q36. National cricket league for upcoming England Test series was held in seven different cities of India - Jaipur, Varanasi, Mysuru, Agra, Shimla, Madurai and Visakhapatnam - not necessarily in the same order during the first seven months of the year (starting from January and ending in July). The matches were held only in one city during a month. Matches in only four cities were held between the Visakhapatnam match and the Mysuru match. The Visakhapatnam match was not held in June. Only one match was held between the Vishakhapatnam match and the Varanasi match. The Jaipur match was held immediately after the Vishakhapatnam match, The Shimla match was held immediately before the Madurai match. The Madurai match was not held in May. How many matches were held between the Agra match and the Jaipur match? *0/1

- A. Two
- B. One
- C. Three ✗
- D. More than three

Correct answer

- B. One

✗ Q37. Two statements are followed by three conclusions numbered I, II and III. You have to consider these statements to be TRUE, even if they seem to be at variance with commonly Known facts. Decide which of the given conclusions logically follow/s from the given statement. *0/1

Statement
No pot is jug.
All pots are tubes.

Courses of Action
I. Some tubes are jugs.
II. Some jugs are tubes.
III. No jug is tube.

- (●) A. Only III follow ✗
- ( ) B. Either II and III follow
- ( ) C. Only II follow
- ( ) D. Only I follow

Correct answer

- (●) B. Either II and III follow

✓ Q38. Read the given statements and conclusions carefully. Assuming that the information given in the statements is TRUE, even if they appear to be a variance with commonly known facts, decide which of the given conclusions logically follow(s) from the statements. *1/1

Statements:
Some engineers are players.
Some players are scientists.
No scientist is a technician.

Conclusions:
I. 'Some scientists are engineers' is a possibility .
II. 'Some technicians are not players' is a possibility.

- A. Only the conclusion II follows
- B. Both the conclusions I and II follow. ✓
- C. Neither the conclusions I nor the conclusion II follows.
- D. Only the conclusion I follows.

✓ Q39. In a group of 30 people, anyone who like to drink Tea also like to drink Coffee. But no one like Tea and Lassi, 8 people like Coffee and Lassi. All the people like at least one of the three drinks and the number of people who like exactly one of the three is 4 more than the number of people who like more than one of the three drinks. How many people like Tea? *1/1

- A. 8
- B. 7
- C. 2
- D. 5 ✓

✓ Q40. In the question given below, four Statements: are followed by four Conclusions. One of which definitely logically follows(or is a possibility of occurrence) from the given Statements. That conclusion is your answer: *1/1

Statements:
All glasses are rooms.
Some rooms are planes.
All planes are ducks.
Some ducks are lanterns.

Conclusions:
I. Some lanterns are planes.
II. Some ducks are rooms.
III. Some rooms are glasses.
IV. Some ducks are glasses.

- A. I and II follows
- B. II and III follows ✓
- C. All follows
- D. I, II and III follows

VERBAL ABILITY 7 of 10 points

✓ Q41. One part of the sentence below may contain an error. Identify the part. If there is no error, choose 'No error'. *1/1

Everyone has been talking about how well he plays a guitar.

- A. No error.
- B. Everyone has been talking
- C. about how well
- D. he plays a guitar. ✓

✓ Q42. One part of the sentence below may contain an error. Identify the part. If there is no error, choose 'No error'. *1/1

The art of good film-making lies into knowing where to focus your camera.

- A. where to focus your camera.
- B. lies into knowing ✓
- C. No error
- D. The art of good film-making

✓ Q43. One part of the sentence below may contain an error. Identify the part. If there is no error, choose 'No error'. *1/1

By analysing the sediment from the Bay of Bengal, researchers are finding that the present Indian monsoon system dates back at least 27 million years.

- A. that the present Indian monsoon system
- B. researches are finding ✓
- C. dates back at least 27 million years
- D. By analysing the sediment from the Bay of Bengal,

✓ Q44. Complete the given sentence by filling in the blanks with the most appropriate pair of words from the options given. *1/1

Delhi's Indira Gandhi International airport is likely to throw open _____ fourth runway for operations in September _____ year.

- A. the / that
- B. its / this ✓
- C. their / previous
- D. its / last

✗ Q45. Select the most appropriate option to fill in the blank. *0/1

I wish someone _____ me to buy some sugar when we were all in the shop.

- A. remind
- B. would remind
- C. reminds
- D. reminded ✗

Correct answer

- B. would remind

✓ Q46. Read the following paragraph and fill in the blanks by selecting the appropriate words. *1/1

If you are a public figure and enjoy some popularity, it becomes imperative for you to ___1___ directly with your followers. This allows you to communicate your feelings and opinion candidly and ___2___ information authentically. When there is a medium between you and your fan base, information is filtered and edited without your control.

Blank 1: A. entertain B. encourage C. engage D. encounter

Blank 2: A. give B. pass C. write D. disseminate

- A. 1-A and 2-B
- B. 1-A and 2-D
- C. 1-D and 2-B
- D. 1-C and 2-D ✓

✗ Q47. Select the most appropriate option to fill in the blank *0/1

Not only did _____ late, but he was also completely unprepared and looked as though he had ____ that kind of task before.

- A. he came, never saw
- B. he come, never seen
- C. he is, never see
- D. he was, never seen ✗

Correct answer

- B. he come, never seen

✗ Q48. For the four sentence (s1 to S4) paragraph given below, sentences S1 and S4 are given. From the options P, Q and R, choose the appropriate sentences for S2 and S3 respectively. *0/1

S1. There is no denial of the fact that recycling plastic is essential but believing that it will help to save the Earth will be a misconception.

S2.

S3.

S4. The actual and grave problem is that single-use plastic is a gross abuse of advanced technology and massive production of it should be avoided at all costs

options:

P. But our effort is absolutely insufficient and distracts us from the real issue.

Q. The bigger role is played by the corporate polluters in plastic problem

R. We all make an effort to find a place to recycle our waste plastic and feel overjoyed if we succeed in doing so

- A. PQ
- B. QR ✗
- C. RP
- D. PR

Correct answer

- C. RP

✓ Q49. Which of the following sentences uses the most formal language? * 1/1

- (●) A. The Government will do everything it can to support the initiative. ✓
- ( ) B. It had been raining cats and dogs when we returned.
- ( ) C. With the popularity of the Internet, everyone's into DIY projects now.
- ( ) D. I employed a lot of unconventional methods for the research.

✓ Q50. The following sentence can be redrafted to make it read better. Choose the sentence that is the best answer. *1/1

I have been a counsellor for 5 yrs now, but I can say I have learned much more from my interactions with clients than the theories I read in books.

- ( ) A. On being a counsellor for 5 yrs now, but I can say I have learned much more from my interactions with clients than the theories I read in books.
- ( ) B.Since being a counsellor for 5 yrs now, but I can say I have learned much more from my interactions with clients than the theories I read in books.
- ( ) C. After being a counsellor for 5 yrs now, but I can say I have learned much more from my interactions with clients than the theories I read in books.
- (●) D. Having been a counsellor for 5 yrs now, but I can say I have learned much more from my interactions with clients than the theories I read in books. ✓
