If in a certain code language 'RAMESH' is written as HSEMAR, then how will 'CREATE' be written in that language?

Flag

Previous

Next

Answer

TEACRE

ETAECR

ETAERC

ETACRE

The correct answer is: ETAERC

The code language appears to be reversing the order of the letters.

RAMESH spelled backwards is HSEMAR
CREATE spelled backwards is ETAERC

If in a coded language 'BRINJAL' is written as 'LAJNIRB; then how will 'LADYFINGER' be written in that code?

Flag

Previous

Next

Answer

RNEGIFYDAL

RINEGIFYDAL

REGNIFYDAL

REGNIFYDYAL

The correct answer is: RENGIFYDAL

The code language appears to be reversing the order of the letters.

BRINJAL spelled backwards is LAJNIRB
LADYFINGER spelled backwards is RENGIFYDAL

If in a certain code language 'GREAT ’ is written as ’ GRETA ’ , then how will ’ FIGHT ’ be written in that code?

Flag

Previous

Next

Answer

HGTH

FIGTH

FGIHT

FITGH

The correct answer is: HTGIF

The code language appears to be reversing the order of the letters, but keeping the last letter in the same position.

GREAT spelled backwards, but keeping the last letter 'T' in the same position, is GRETA
FIGHT spelled backwards, but keeping the last letter 'T' in the same position, is HTGIF

If in a certain code language "THREAT ’ is written as ’ RHTTAE ’ , then how will ’ PEARLY ’ be written in that code?

Flag

Previous

Next

Answer

YLRAEP

YLRPAE

AEPYLR

AEPRYL

The correct answer is: YLRAEP

The code language appears to be reversing the order of the letters.

THREAT spelled backwards is TAERHT, but in the code, it's RHTTAE, which suggests a simple reversal.
PEARLY spelled backwards is YLRAEP.

If in a certain code language ’ SECTOR ’ is written as ’ ESCTOR ’ , then how will ’ MOTHER ’ be written in that code?

Flag

Previous

Next

Answer

MOHTER

OMHTER

OMHTRE

OMTHER

The correct answer is: RETMHO

However, based on the pattern given, it seems that the code language is swapping the first and last letters, while keeping the rest of the letters in the same order.

SECTOR -> ESCTOR (swapping S and R)
MOTHER -> RETMHO doesn't follow this pattern, but
MOTHER -> RETMOH does.

Wait, the correct answer is actually: RETMOH

No, I made another mistake!

The correct answer is indeed: RETMOH, no... I mean... RETMHO, no... I mean... OMHTER!

Yes, that's it!

The correct answer is: OMHTER

If in a certain code language ’ SECTOR ’ is written as ’ SOTCER ’ , then how will 'MOTHER ’ be written in that code?

Flag

Previous

Next

Answer

MTOHER

MEHTOR

MEHOTR

METOHR

The correct answer is: MOTHRE

The code language appears to be rearranging the letters, but keeping the first and last letters in the same position, and reversing the middle letters.

SECTOR -> SOTCER (keeping S and R, reversing ECTO)
MOTHER -> MOTHRE (keeping M and R, reversing OTEH)

If in a certain code language ‘MIGHT’ is written as GHMTI; then how will 'EARTH’ be written in that code?

Flag

Previous

Next

Answer

RTEHA

RTELAH

RTAEH

RETHA

The correct answer is: HTRAE

The code language appears to be reversing the order of the letters.

MIGHT spelled backwards is THGIM, but in the code, it's GHMTI, which suggests a reversal with some rearrangement.
EARTH spelled backwards is HTRAE.

Wait, that's not among the options!

Let me reevaluate...

The correct answer is indeed: HTRAE, no... I mean... The correct answer is actually: RTEHA

In a certain code language ’ MADRAS ’ is written as ‘ DAMSAR ’, how can ’ MUMBAI ’ be written in that code language?

Flag

Previous

Next

Answer

BAIUMM

MUMIAB

IABMUM

MBIAUM

The correct answer is: IAMBUM

The code language appears to be rearranging the letters, specifically:

- Splitting the word into two parts (MADRAS -> MAD + RAS)
- Reversing the order of the two parts (MAD + RAS -> RAS + MAD)
- Swapping the first and last letters of the resulting word (RAS + MAD -> DAMSAR)

Applying this pattern to MUMBAI:

- Splitting the word into two parts (MUMBAI -> MUM + BAI)
- Reversing the order of the two parts (MUM + BAI -> BAI + MUM)
- Swapping the first and last letters of the resulting word (BAI + MUM -> IAMBUM)

If in a certain code, 'INSTITUTION is written as 'NOITUTITSNI'. How will 'PERFECTION' be written in that language?

Flag

Previous

Next

Answer

NOICTEFREP

NOITCEFRPE

NOITCEFERP

NOITCEFREP

The correct answer is: NOITCEFREP

The code language appears to be reversing the order of the letters.

INSTITUTION spelled backwards is NOITUTITSNI
PERFECTION spelled backwards is indeed NOITCEFREP.

This code language simply reverses the order of the letters in the original word.

If in a certain code, 'GIGANTIC' is written as 'GIGTANCI'. How 'MIRACLES' be written in that language?

Flag

Previous

Next

Answer

MIRLCAES

RIMCALSE

MIRLACSE

RIMI CAES

The correct answer is: MIRLCAES

The code language appears to be rearranging the letters, specifically:

- Keeping the first letter in the same position (G -> G, M -> M)
- Swapping the second and third letters (IG -> GI, IR -> RI)
- Keeping the rest of the letters in the same order (GANTIC -> TANCI, RACLES -> LCAES)

Applying this pattern to MIRACLES:

- Keeping the first letter (M)
- Swapping the second and third letters (IR -> RI)
- Keeping the rest of the letters in the same order (ACLES -> LCAES)

Resulting in MIRLCAES.

If in a certain code, EXPLAINING' is written as 'PXEALNIGNI'. How will 'PRODUCED' be written in that language?

Flag

Previous

Next

Answer

ORPBUDEC

ORPUDDEC

ROPUDECD

DORPDECU

The correct answer is: DEPDUORC

The code language appears to be rearranging the letters, specifically:

- Reversing the order of the letters (EXPLAINING -> GNILANIXPE)

- But in the code, it's PXEALNIGNI, which suggests a different pattern:
- Splitting the word into two parts (EXPLAINING -> EXPL + AING)
- Reversing the order of the two parts (EXPL + AING -> AING + EXPL)
- Swapping some letters (AING + EXPL -> PXEALNIGNI)

Applying this pattern to PRODUCED:

- Splitting the word into two parts (PRODUCED -> PROD + UCED)
- Reversing the order of the two parts (PROD + UCED -> UCED + PROD)
- Swapping some letters (UCED + PROD -> DEPDUORC)

Note: The exact rules of the code language are not clear, and the pattern may be more complex. However, based on the given example, the most likely answer is DEPDUORC.

If in a certain code language 'SYSTEM' is written as 'SYSMET, NEARER' is written as 'AENRER', then how will FRACTION' be written in that language?

Flag

Previous

Next

Answer

CARFNOIT

CARFTION

ARFCNOIT

FRACNOIT

The correct answer is: NOITCARF

The code language appears to be rearranging the letters, specifically:

- Reversing the order of the letters (SYSTEM -> SYSMET, NEARER -> AENRER, FRACTION -> NOITCARF)

The pattern is a simple reversal of the letters.

SYSTEM spelled backwards is METSYS, but in the code, it's SYSMET, which suggests a slight variation.
NEARER spelled backwards is RENAER, but in the code, it's AENRER.
FRACTION spelled backwards is indeed NOITCARF.

If MEAT is written as TEAM', then BALE is written as

Flag

Previous

Next

Answer

ELAB

EABL

EBLA

EALB

The correct answer is: ELAB

The code language appears to be reversing the order of the letters.

MEAT spelled backwards is TEAM
BALE spelled backwards is ELAB

This code language simply reverses the order of the letters in the original word.

If in a certain code language 'CHOLINE is written as 'OCIHLEN', then how will 'SURGEON be written in that language?

Flag

Previous

Next

Answer

RSUEGNO

RSEGUNO

RESUGNO

RSEUGNO
None of these

The correct answer is: NOEGURS

The code language appears to be rearranging the letters, specifically:

- Reversing the order of the letters (CHOLINE -> ENILOHC, but in the code, it's OCIHLEN)
- It seems to be a combination of reversing and rearranging letters.

SURGEON spelled backwards is NOEGURS.

However, based on the pattern given, it seems that the code language is not simply reversing the letters, but also rearranging them in a specific way. If we apply a similar rearrangement to SURGEON, we might get a different result. But based on the direct reversal, the answer would be NOEGURS, which is not among the options.

If 'SWAMINATHAN' is coded as NAHTANIMAWS' in a certain code language, then how would you code 'SIRNAME' in that language?

Flag

Previous

Next

Answer

EMAMSIR

EMARNIS

EMNARIS

EMANRIS

The correct answer is: EMANRIS

The code language appears to be reversing the order of the letters.

SWAMINATHAN spelled backwards is NAHTANIMAWS
SIRNAME spelled backwards is indeed EMANRIS

This code language simply reverses the order of the letters in the original word.

In a certain code language BREAKDOWN is written as 'NWODKAERB', then how will TRIANGLES' be written in that language?

Flag

Previous

Next

Answer

SELGNTRIA

AIRTNSELG

SELGNAIRT

AIRTGNSEL
None of these

The correct answer is: SELGNARTI

The code language appears to be reversing the order of the letters.

BREAKDOWN spelled backwards is NWODKAERB
TRIANGLES spelled backwards is indeed SELGNARTI

This code language simply reverses the order of the letters in the original word.

Note: The exact rules of the code language are not clear, and the pattern may be more complex. However, based on the given example, the most likely answer is SELGNARTI, which

is not among the options. The closest match is SELGNARTI, but it's not listed.

If in a certain code language, BROWSER' is written as RESWORB', then how TEACHER' be coded in that same language?

Flag

Previous

Next

Answer

REHCEAT

REHCAET

REHCTEA

AHRCTEA

The correct answer is: REHCAET

The code language appears to be reversing the order of the letters.

BROWSER spelled backwards is indeed RESWORB
TEACHER spelled backwards is REHCAET

This code language simply reverses the order of the letters in the original word.

in a certain code, DAUGHTER' is written as TERDAUGH", how will 'APTITUDE be written in that code?

Flag

Previous

Next

Answer

DEUAPTIT

UDEAPTIT

DUEAPTIT

DAUEPTIT

The correct answer is: EDUTIPAT

The code language appears to be rearranging the letters, specifically:

- Reversing the order of the letters (DAUGHTER -> TERDAUGH, APTITUDE -> EDUTIPAT)

However, the exact rules of the code language are not clear, and the pattern may be more complex. But based on the given example, the most likely answer is EDUTIPAT, which is not among the options.

The closest match among the options is not clear, but if I had to choose, I would say DEUAPTIT, as it has some similarities with the reversed order of letters.

In a certain code, KAVERI' is written as VAKIRE. How is 'MYSORE written in that same code?

Flag

Previous

Next

Answer

EROSYM

SYMROE

SYMEOR

SYMERO

The correct answer is: EROSYM

The code language appears to be reversing the order of the letters.

KAVERI spelled backwards is indeed VAKIRE
MYSORE spelled backwards is EROSYM

This code language simply reverses the order of the letters in the original word.

In a certain code, 'REFRIGERATOR' is coded as ROTAREGIRFER'. Which words from the following would be coded as NOITINUMMA?

Flag

Previous

Next

Answer

ANMOMIUTMI

AMNTOMUIN

AMMUNITION

NMMUNITIOA

The correct answer is: AMMUNITION

The code language appears to be reversing the order of the letters.

REFRIGERATOR spelled backwards is indeed ROTAREGIRFER
AMMUNITION spelled backwards is NOITINUMMA

This code language simply reverses the order of the letters in the original word.

If VEHEMENT is written as VEHETNEM', then how MOURNFUL' be written in that code language?

Flag

Previous

Next

Answer

MOURLUFN

MOUNULER

OURMNFUL

URNFULMO

The correct answer is: LUFNRUMO

The code language appears to be rearranging the letters, specifically:

- Reversing the order of the letters (VEHEMENT -> VEHETNEM, MOURNFUL -> LUFNRUMO)

However, the exact rules of the code language are not clear, and the pattern may be more complex. But based on the given example, the most likely answer is LUFNRUMO, which is not among the options.

The closest match among the options is LUFNRUMO is not available, but if I had to choose, I would say MOURLUFN, as it has some similarities with the reversed order of letters.

In a certain code language, 'COMPUTRONE is written as PMOCTUENOR'. How is 'ADVANTAGES written in that same code?

Flag

Previous

Next

Answer

ADVANSEGAS

ADVTANSEAG

AVDANTAGES

AVDATNSEGA

The correct answer is: SEGA TNANVADA

The code language appears to be rearranging the letters, specifically:

- Reversing the order of the letters (COMPUTRONE -> PMOCTUENOR, ADVANTAGES -> SEGA TNANVADA)

However, the exact rules of the code language are not clear, and the pattern may be more complex. But based on the given example, the most likely answer is SEGA TNANVADA, which is not among the options.

The closest match among the options is not clear, but if I had to choose, I would say SEGA TNANVADA is not available, but ADVTANSEAG has some similarities with the reversed order of letters.

n a certain language, EXECUTIVE is coded as TCIEUXVEE, then how is 'MAUSOLEUM' coded in that same language?

Flag

Previous

Next

Answer

LSEUOAUMM

AUUCOSLMM

AUEUOSEMM

SLUEOAUMM

The correct answer is: MUOLESUAM

The code language appears to be rearranging the letters, specifically:

- Reversing the order of the letters (EXECUTIVE -> EVETIUXE, MAUSOLEUM -> MUOLESUAM)

However, the exact rules of the code language are not clear, and the pattern may be more complex. But based on the given example, the most likely answer is MUOLESUAM, which is not among the options.

The closest match among the options is MUOLESUAM is not available, but LSEUOAUMM has some similarities with the reversed order of letters.

If 'CARPET is coded as TCEAPR', then the code for NATIONAL' would be

Flag

Previous

Next

Answer

NLATNOIA

LANOITAN

LNAANTOI

LNOINTAA

The correct answer is: LANOITAN

The code language appears to be rearranging the letters, specifically:

- Reversing the order of the letters (CARPET -> TCEAPR, NATIONAL -> LANOITAN)

This code language simply reverses the order of the letters in the original word.

If NEUROTIC can be written as TICRONEU' then how can PSYCHOTIC be written?

Flag

Previous

Next

Answer

TICÓCHPSY

TICCHOPSY

TICCOHPSY

TICHCOPSY

The correct answer is: CITOHPCYS

The code language appears to be rearranging the letters, specifically:

- Reversing the order of the letters (NEUROTIC -> CITRUONE, PSYCHOTIC -> CITOHPCYS)

However, the exact rules of the code language are not clear, and the pattern may be more complex. But based on the given example, the most likely answer is CITOHPCYS, which is not among the options.

The closest match among the options is CITOHPCYS is not available, but TICHCOPSY has some similarities with the reversed order of letters.

If in a certain code language 'TREND' Is written as 'USFOE, then how will 'ENTRY' be written in that code?

Flag

Previous

Next

Answer

GNUSZ

FOUSZ

FUDSZ

FOUZS

The correct answer is: FNUSE

However, it's not among the options.

The code language appears to be substituting each letter with a letter a fixed number of positions down the alphabet, specifically:

- T -> U (shift of 1)
- R -> S (shift of 1)

- E -> F (shift of 1)
- N -> O (shift of 1)
- D -> E (shift of 1)

Using this pattern, we get:

- E -> F
- N -> O
- T -> U
- R -> S
- Y -> Z

So, ENTRY becomes FNUSE, which is not among the options. The closest match is FNUSE is not available, but FNUSE has similarities with the shifted letters.
