APTITUDE ABILITY 11 of 25 points

✗ Q1 * 0/1

What is the remainder when 13^{83} is divided by 11?

A.6 ✗

B.3

C.8

D.5

Correct answer

B.3

✓ Q2 * 1/1

If p = (√6 - √5) and q = (√10 + √3), then what is the value of $(p^2+q^2)/6$?

A.9

B.6

C.4 ✓

D.3

✓ What will come in place of the question mark (?) in the following question? *1/1

$16^{10} \times 2^{?} = 8^{8} \times 32^{4}$

- A.5
- B.2
- C.4 ✓
- D.3

✗ Q4 * 0/1

If $x\left(3 - \frac{2}{x}\right) = \frac{3}{x}$ then what is the value of $\left(x^3 - \frac{1}{x^3}\right) - \left(x^2 + \frac{1}{x^2}\right)$

- A.-4/27
- B.-8/27 ✗
- C.-16/81
- D.-2/9

Correct answer

- A.-4/27

✗ In measuring time using a device the percentage error is 0.1%. What will be the percentage error in the measurement of square of a time interval by using the same device, when the CORRECT value (in second square) is 16? *0/1

- A.0.2001
- B.0.201
- C.0.2002 ✗
- D.0.2004

Correct answer

- D.0.2004

✓ A Shopkeeper has initially 400 Cookies. He sold 15% Cookies to Bindhu, 20% more Cookies than Bindhu to Preet, 40% Cookies to Raju and remaining Cookies to Karan. How many Cookies did Karan buy? *1/1

- A.108 ✓
- B.112
- C.96
- D.84

✗ A shopkeeper incurs a loss of Rs. 90 if he marked up the price of an article by 10% and offered x% discount. He gains Rs. 70 on the same article if he exchanges the marked price with discount percent. Find the value of x? *0/1

- A.50
- B.25
- C.60
- D.40 ✗

Correct answer

- A.50

✓ A lady bought two sarees of Rs. 2000 each. She sold one at a loss of 10% and the other at a profit after offering a discount of 5%. She incurred an overall loss of 3.7%. What percentage above the cost price was the marked price of the second saree? *1/1

- A.4
- B.8 ✓
- C.3.2
- D.3.6

✗ Mahendra invested certain amount in scheme for 3(⅕) years at 24(½)% Simple Interest, and the interest amount received is Rs. 11760. For how much more time must he invest his capital to obtain Rs. 5880 more interest? *0/1

- (●) A.1.2 years ✗
- ( ) B.1.5 years
- ( ) C.1.6 years
- ( ) D.1.8 years

Correct answer

- (●) C.1.6 years

✓ What is the interest (in Rs.) on Rs. 20 lakhs, at the rate of 4%, compounded annually of 27 months? *1/1

- ( ) A.393424
- ( ) B.384176
- ( ) C.276168
- (●) D.NONE OF THESE ✓

✓ If a:b = 5:7 and 1/c:1/b = 8:9; which among the following represents a:b:c? *1/1

- ( ) A.40:63:56
- ( ) B.20:35:24
- (●) C.40:56:63 ✓
- ( ) D.20:24:35

✗ The respective ratio between the present daily wages of a Harsh and Pankaj is 7:8. After 8 years, this will be 9:10 respectively. If at the time of joining, the ratio of their wages was 11 :13 respectively, how many years ago they were joined the work? *0/1

- (●) A.4 ✗
- ( ) B.8
- ( ) C.10
- ( ) D.6

Correct answer

- (●) D.6

✗ X, Y, Z started a partnership business by investing capitals in the proportion 4:5:8. At the end of the business term, the profits earned by Y, Z, X turned out to be in the proportion 8:9:12. What was the proportion of the periods for which the investments were made by Z, X, Y? *0/1

- (●) A.18:45:25 ✗
- ( ) B.3:5:4
- ( ) C.48:75:50
- ( ) D.45:120:64

Correct answer

- (●) D.45:120:64

✗ A and B, working alone, can do a work in 8 and 5 days respectively. They work together and a total payment of Rs. 6500 is made to them. What is the share (in Rs.) of B? *0/1

- A.3900
- B.2500
- C.4000 ✗
- D.2600

Correct answer

- B.2500

✗ 12 girls can complete a work in 21 days. 7 boys can finish the three-fifths of the same work in 30 days. Find the time taken by 3 girls and 1 boy to complete the (31/42)th of the work? *0/1

- A.30 days
- B.45 days
- C.50 days
- D.60 days ✗

Correct answer

- C.50 days

✓ A person has to cover 720km distance. If he decreases his speed by 12 km/h, he reaches 2 hr late. Find the ratio of his initial and final time to reach the destination respectively. *1/1

- A.4:5
- B.7:9
- C.5:6 ✓
- D.6:7

✗ A motor cyclist sets out for a journey of length 50km. After 42 mins it is observed that he has covered 7/18 of the remaining distance. With how much speed should he travel the remaining distance, so that his average speed for the entire journey is 31.25 km/h? *0/1

- A.45
- B.36 ✗
- C.40
- D.30

Correct answer

- C.40

✓ The difference between two numbers is 76. Thrice the smaller number is less than the larger number by 37.5% of the smaller number. What is the larger number? *1/1

- (●) A.108 ✓
- ( ) B.120
- ( ) C.126
- ( ) D.102

✗ A hollow ,metallic cube of uniform thickness 1 cm, and outer edge 10cm melted and recast for getting it into a solid spherical shape. But in the process only 11/21 of the material could be recovered.Then what is the radius (nearest to integer in cm) of the spherical shape so obtained (Take Π=22/7) *0/1

- ( ) A.3
- ( ) B.5
- (●) C.4 ✗
- ( ) D.6

Correct answer

- (●) A.3

✓ The difference between the circumference and the radius of a circular playground is 185cms. If one fence is needed around the ground, what will be the cost of fencing if the price for fencing is Rs. 12 per cm? *1/1

- A.Rs. 2720
- B.Rs. 2160
- C.Rs. 2280
- D.Rs. 2640 ✓

✗ The range of the data 10, 8, 12, 23, 18, 35, 56, 82, 49 and 76 is how much less than its maximum value? *0/1

- A.9
- B.10 ✗
- C.8
- D.12

Correct answer

- C.8

✗ The sum of the consecutive even numbers is 240. What is the least number of another set of seven consecutive even numbers whose average is the second highest number of the given set? *0/1

- A.44
- B.72 ✗
- C.68
- D.66

Correct answer

- A.44

✓ If x is the arithmetic mean of the first 4 prime numbers, Y is the arithmetic mean of the first 4 composite numbers and Z is the arithmetic mean of the first 4 multiples of 11 then, find the mode of the following numbers.
7, 3, 9, 11, 3, X, Y, Z, 9, 7, 8 and 7 *1/1

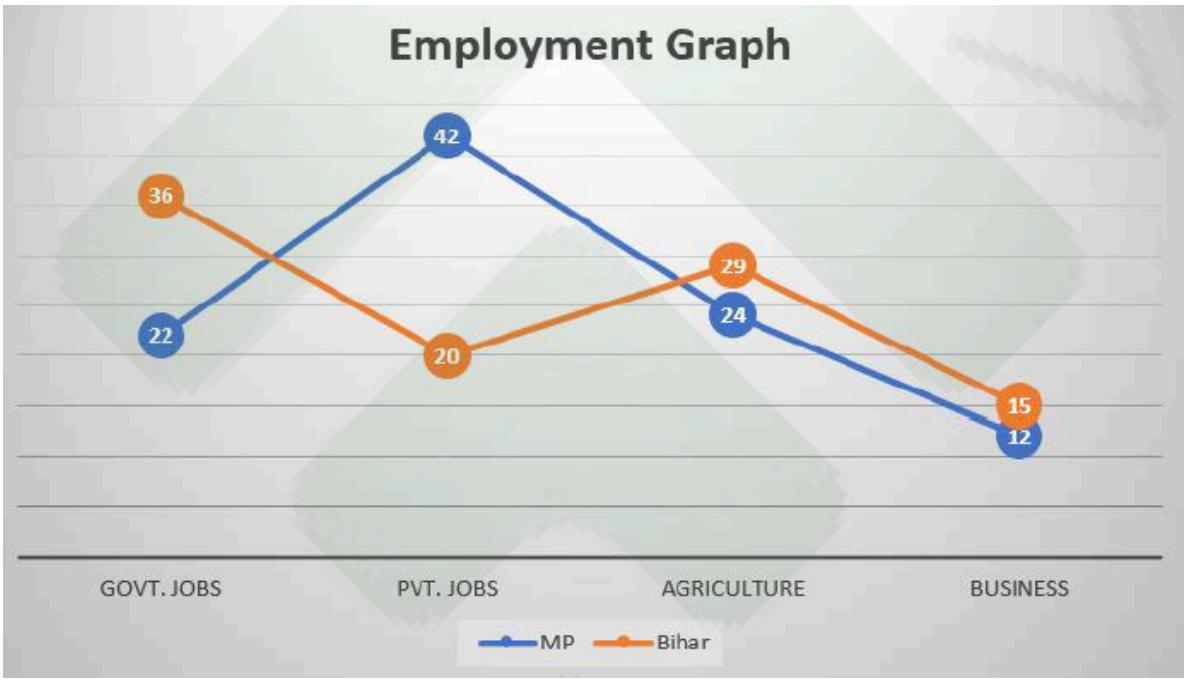

- A.11
- B.7 ✓
- C.9
- D.3

✓ The cost of one share of 6 different companies is Rs. 46, Rs. 42, Rs. 51, Rs. 43, Rs. 40 and Rs. 53 respectively. How much more is the mean deviation about the median of the given costs than the mean of the costs? *1/1

- A.43.83
- B.41.67 ✓
- C.45.83
- D.46.33

✗ The following line graph represents the percentage distribution of people of Madhya-Pradesh and Bihar in different employment areas. Study the line graph carefully and answer the question. *0/1

If the population of Madhya-Pradesh and Bihar is same, how much more is the number of people doing private job in Madhya Pradesh than the number of people doing business in Bihar?

- A.180%
- B.225% ✗
- C.160%
- D.200%

Correct answer

- A.180%

REASONING ABILITY 6 of 17 points

✗ Which is the WRONG term in the following series? * 0/1
SBNQ, UEMO, WHLM, YKKJ, ANJI

- (●) A.WHLM ✗
- ( ) B.YKKJ
- ( ) C.UEMO
- ( ) D.ANJI

Correct answer

- (●) B.YKKJ

✓ In each of the four pairs of letter-clusters, the letters in the second term are in a rearrange/transformed form of the letters from the first term in a particular pattern. In which two pairs, has the transformation been done the same way? *1/1
[A]TUESDAY - DAYTUES
[B]FRIDAY - RFDIAY
[C]MONDAY - OMDNAY
[D]THURSDAY - TUSADYHR

- ( ) A.A and C
- (●) B.B and C ✓
- ( ) C.B and D
- ( ) D.C and D

✓ Given below is a question followed by two statements, I and II each containing some information. Decide which of the following statement(s) is/are sufficient to answer the question. *1/1

Amongst five friends seated in a straight line facing North, is Q sitting at extreme left end?

1.Q, S are immediate neighbours of each other. Similarly, T, R are also immediate neighbours of each other.P sits exactly in the middle of the line.

2.P who sits exactly in the middle of the line is second to the left of R. Q is not an immediate neighbour ofP.

- A.The data in statement I alone is sufficient to answer the question, while the data in Statement II alone isnot sufficient to answer the question.
- B.The data in Statement II alone is sufficient to answer the question, while the data in Statement I alone isnot sufficient to answer the question. ✓
- C.The data either in Statement I alone or in Statement II alone are sufficient to answer the question.
- D.The data in both the statements I and II are not sufficient to answer the question

✗ Given below is a question followed by two statements, I and II each containing some information. Decide which of the following statement(s) is/are sufficient to answer the question. *0/1

A, B, C and D have different heights and weights. Who is the heaviest among them?

Statements:

I.The heaviest person is also the 2nd shortest. A is heavier than C, who is shorter than B but not shortestand D is the lightest.

II.The 2nd shortest person is the heaviest person. C is lighter than B, who is the tallest. A is heavier than D.

- ○ A.I alone is sufficient but II alone is not sufficient.
- ◉ B.II alone is sufficient but I alone is not sufficient. ✗
- ○ C.Either statement I or II alone is sufficient.
- ○ D.Both the statements together are necessary.

Correct answer

- ◉ C.Either statement I or II alone is sufficient.

✗ Given below is a question followed by three statements I, II and III, each containing some information. Decide which of the given statements is CORRECT. *0/1

Who amongst P,Q,R,S and T is the third youngest person?

I.Q is the second eldest person.
II.Neither P nor R is the youngest, and P nor R is the youngest, and P is not the eldest.
III.S is the second youngest person.

- (●) A.If the data in statements II and III are sufficient to answer the question, while the data in statement I is notrequired to answer the question. ✗
- ( ) B.If the data in statements I and II are sufficient to answer the question, while the data in statement III is notrequired to answer the question.
- ( ) C.If the data in all the statements I, II and III together are necessary to answer the question.
- ( ) D.If the data in statements I and III are sufficient to answer the question, while the data in statement II is notrequired to answer the question.

Correct answer

- (●) C.If the data in all the statements I, II and III together are necessary to answer the question.

✓ Biswas is the father of Tilak. Biswas has only two children. Tilak is the brother of Rani. Rani is the daughter of Pratiksha. Anvi is the granddaughter of Pratiksha. Shoban is the father of Anvi. Rani is married to Shoban. How is Shoban related to Tilak if '%' is son, '$' is son-in-law, '*' is brother, '&' is brother-in-law? *1/1

- ( ) A.*
- ( ) B.$
- ( ) C.%
- (●) D.& ✓

✗ In a certain code, if: *0/1

Q @ R means R is the daughter of Q.
Q # R means R is the son of Q.
Q $ R means R is the sister of Q.
Q % R means Q is the brother of R.
Q + R means Q is the mother of R.
S % T - O $ N - E
If O and E are male members of the family. Which of the following is a CORRECT conclusion drawn from the expression?

- (●) A.E is son of T ✗
- ( ) B.N is daughter of O.
- ( ) C.S is sister of T.
- ( ) D.E is son of N

Correct answer

- (●) D.E is son of N

✗ Some students of a school are stand in a row, if Anvesha who is 15th from the left and Kush who is 6th from the right interchange their positions, Anvesha becomes 24th from the left. How many students are there in a row? *0/1

- ( ) A.28
- (●) B.27 ✗
- ( ) C.30
- ( ) D.29

Correct answer

- (●) D.29

✓ Read the following information carefully and answer the question that follows. *1/1

1.Five persons - Anmol, Bipin, Chaya, Disha and Manoj.
2.One of them is a nutritionist, one is a dentist, one is a filmmaker, one is a politician and one is an economist.
3.Three of them - Anmol, Chaya and economist prefer tea to coffee and two of them - Bipinand thefilmmaker prefer coffee to tea.
4.The politician, Disha and Anmol are friends to one another but two of them prefer coffee to tea.
5.The nutritionist is Chaya's brother.

- A.Bipin
- B.Anmol ✓
- C.Disha
- D.Chaya

✗ Mohan and Sarayu are good at image processing and signal processing. Archana and Mohan are good at signal processing and Cryptography. Archana, Pallavi and Nirupama are good at Cryptography and data science. Nirupama and Archana are good at Cryptography and Wavelet theory. Pallavi and Sarayu are good at Data science and image processing. *0/1

Who is good at signal processing, data science and image processing?

- A.Nirupama
- B.Archana
- C.Mohan ✗
- D.Sarayu

Correct answer

- D.Sarayu

✓ National cricket league for upcoming England Test series was held in seven different cities of India - Jaipur, Varanasi, Mysuru, Agra, Shimla, Madurai and Visakhapatnam - not necessarily in the same order during the first seven months of the year (starting from January and ending in July). The matches were held only in one city during a month.
Matches in only four cities were held between the Visakhapatnam match and the Mysuru match. The Visakhapatnam match was not held in June. Only one match was held between the Vishakhapatnam match and the Varanasi match. The Jaipur match was held immediately after the Vishakhapatnam match, The Shimla match was held immediately before the Madurai match. The Madurai match was not held in May.

How many matches were held between the Agra match and the Jaipur match? *1/1

- A.Two
- B.One ✓
- C.Three
- D.More than three

✗ A carpenter takes an order to make some chairs in 3 days. He made in following manner. *0/1

Day1 - He made one third of the total chairs plus 4 chairs.
Day2 - He made one fourth of the remaining chairs plus 4 chairs.
Day3 - He made half of the remaining chairs plus 4 chairs.

What part of the order he makes on day 2?

- A. 4/15
- B. 7/15 ✗
- C. 2/5
- D. 5/9

Correct answer

- A. 4/15

✗ Following is the selection criteria for a candidate to get selected for the role of Mathematics Trainer in ABC organization:
(a)Must have completed Master's in Mathematics.
(b)Must have work experience of at least 4 years of Mathematics teaching.
(c)If a candidate full fills criteria (b) and not (a) but have done B. Tech with 90 percent marks then case willbe sent to Chief Hiring Manager.
(d)If a candidate full fills criteria (a) and not (b) but have a B. Ed. degree then he will be in waiting list.

Reetika has completed her B. Tech from ICE in 2014 with 92 percent. She is working as mathematics teacher for last 6 years in reputed organisation. Reetika applied for maths teacher role in ABC Organisation. *0/1

- ○ A.Her case will be in waiting list.
- ○ B.Her case will be sent to Chief Hiring Manager.
- ◉ C.She will be selected. ✗
- ○ D.She will not be selected.

Correct answer

- ◉ B.Her case will be sent to Chief Hiring Manager.

✗ Two statements are followed by three conclusions numbered I, II and III. You have to consider these statements to be TRUE, even if they seem to be at variance with commonly Known facts. Decide which of the given conclusions logically follow/s from the given statement. *0/1

Statement
No pot is jug.
All pots are tubes.

Courses of Action
I.Some tubes are jugs.
II.Some jugs are tubes.
III.No jug is tube.

- (●) A.Only III follow ✗
- ( ) B.Either II and III follow
- ( ) C.Only II follow
- ( ) D.Only I follow

Correct answer

- (●) B.Either II and III follow

✓ Read the given statements and conclusions carefully. Assuming that the information given in the statements is TRUE, even if they appear to be a variance with commonly known facts, decide which of the given conclusions logically follow(s) from the statements. *1/1

Statements:
Some engineers are players.
Some players are scientists.
No scientist is a technician.

Conclusions:
I.'Some scientists are engineers' is a possibility .
II.'Some technicians are not players' is a possibility.

- A.Only the conclusion II follows
- B.Both the conclusions I and II follow. ✓
- C.Neither the conclusions I nor the conclusion II follows.
- D.Only the conclusion I follows.

✗ In a group of 30 people, anyone who like to drink Tea also like to drink Coffee. But no one like Tea and Lassi, 8 people like Coffee and Lassi. All the people like at least one of the three drinks and the number of people who like exactly one of the three is 4 more than the number of people who like more than one of the three drinks. How many people like Tea? *0/1

- A.8 ✗
- B.7
- C.2
- D.5

Correct answer

- D.5

✗ In the question given below, four Statements: are followed by four Conclusions. One of which definitely logically follows(or is a possibility of occurrence) from the given Statements. That conclusion is your answer: *0/1

Statements:
All glasses are rooms.
Some rooms are planes.
All planes are ducks.
Some ducks are lanterns.

Conclusions:
I.Some lanterns are planes.
II.Some ducks are rooms.
III.Some rooms are glasses.
IV.Some ducks are glasses.

- A.I and II follows
- B.II and III follows
- C.All follows
- D.I, II and III follows ✗

Correct answer

- B.II and III follows

VERBAL ABILITY 0 of 8 points

✗ The part of the sentence below may contain an error. Identify the part. If there is no error, choose 'No error'. ···/1

World Health Organization must intensify their efforts to vaccinate people in African countries.

- (●) World Health Organisation must ✗
- ( ) people in African countries.
- ( ) No error
- ( ) intensify their efforts to vaccinate

No correct answers

✗ The part of the sentence below may contain an error. Identify the part. If there is no error, choose 'No error'. ···/1

A paramedic is expected to be highly skilled into dealing with emergency patients.

- (●) highly skilled into dealing with ✗
- ( ) No error
- ( ) emergency patients
- ( ) A paramedic is expected to be

No correct answers

✗ The part of the sentence below may contain an error. Identify the part. If there is no error, choose 'No error'. ···/1

The rise in the price of oil and an increase in demand has forced some farmers to harvest oil crops for biofuels.

- ○ farmers to produce oil crops for biofuels
- ○ No error
- ◉ in demand has forced some ✗
- ○ The rise in the price of oil and an increase

No correct answers

✗ Select the most appropriate option to fill in the blank. ···/1

I have a lot of work to do. I can't leave the office _____ one hour

- ○ by
- ○ until
- ◉ for ✗
- ○ since

No correct answers

✕ For the four sentence (s1 to S4) paragraph given below, sentences S1 and S4 are given. From the options P, Q and R, choose the appropriate sentences for S2 and S3 respectively. S1. Matcha tea is a variant of the Japanese green tea.
S2.
S3.
S4. According to many sources, the main antioxidant in green tea, EGCG, boosts metaback.
P. One serving of Matcha tea has 10 times more antioxidants than one cup of brewer green tea.
Q. It is made from whole tea leaves and packed with antioxidants.
R. Green tea gets its signature green colour from chlorophyll, which is a powerful detoxifier.

···/1
